## **SECTION 2: Hazard identification**

## 2.1. Hazard classification

Flammable Liquid: Category 4. Serious Eye Damage/Irritation: Category 2A. Specific Target Organ Toxicity (single exposure): Category 3.

2.2. Label elements Signal word Warning

Symbols Exclamation mark |

**Pictograms** 

Hazard Statements Combustible liquid.

Causes serious eye irritation. May cause respiratory irritation.

## **Precautionary Statements**

## **Prevention:**

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wear protective gloves and eye/face protection. Wash thoroughly after handling.

#### **Response:**

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

Call a POISON CENTER or doctor/physician if you feel unwell.

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.

#### Storage:

Keep cool. Keep container tightly closed. Store locked up in a well-ventilated place.

#### **Disposal:**

Dispose of contents/container in accordance with applicable local/regional/national/international regulations.

#### 2.3. Hazards not otherwise classified

Avoid eye and skin contact. If eyelids are bonded, do not force open. In case of skin bonding, quickly soak in warm water and avoid excessive force to free bonded area. May bond tissue rapidly. Contact through clothing may cause thermal burns.

## **SECTION 3: Composition/information on ingredients**

| Ingredient                | C.A.S. No. | % by Wt                |
|---------------------------|------------|------------------------|
| ETHYL CYANOACRYLATE       | 7085-85-0  | 80 - 90 Trade Secret * |
| POLY(METHYL METHACRYLATE) | 9011-14-7  | 10 - 20 Trade Secret * |

\*The specific chemical identity and/or exact percentage (concentration) of this composition has been withheld as a trade secret.

# **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

### Inhalation:

Remove person to fresh air. If you feel unwell, get medical attention.

#### Skin Contact:

FOR SKIN BONDS: Quickly soak in warm water and avoid use of excessive force to free bonded area. If unable to free bonded area, or if lips or mouth are bonded, get medical attention. If irritation persists, get medical attention.

#### **Eye Contact:**

Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention. DO NOT force eyelids open.

#### If Swallowed:

Rinse mouth. If you feel unwell, get medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1. Information on toxicological effects.

# **4.3.** Indication of any immediate medical attention and special treatment required

Not applicable

## **SECTION 5: Fire-fighting measures**

#### 5.1. Suitable extinguishing media

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.

## 5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

## Hazardous Decomposition or By-Products

| Substance          | <u>Condition</u>  |
|--------------------|-------------------|
| Carbon monoxide    | During Combustion |
| Carbon dioxide     | During Combustion |
| Oxides of Nitrogen | During Combustion |

## 5.3. Special protective actions for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture.

## **SECTION 6: Accidental release measures**

## 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapors in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

## **6.2.** Environmental precautions

Avoid release to the environment.

## 6.3. Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible

### 3M<sup>TM</sup> Scotch-Weld<sup>TM</sup> Instant Adhesive CA4 Clear 05/12/16

using non-sparking tools. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorized person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and SDS. Seal the container. Dispose of collected material as soon as possible.

# **SECTION 7: Handling and storage**

## 7.1. Precautions for safe handling

For industrial or professional use only. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wash contaminated clothing before reuse. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.)

## 7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store away from heat. Store away from acids. Store away from strong bases. Store away from oxidizing agents. Store away from amines.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### **Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient          | C.A.S. No. | Agency       | Limit type  | Additional Comments |
|---------------------|------------|--------------|-------------|---------------------|
| ETHYL CYANOACRYLATE | 7085-85-0  | ACGIH        | TWA:0.2 ppm |                     |
|                     |            | <b>Y Y Y</b> |             |                     |

ACGIH : American Conference of Governmental Industrial Hygienists

AIHA : American Industrial Hygiene Association

CMRG : Chemical Manufacturer's Recommended Guidelines

OSHA : United States Department of Labor - Occupational Safety and Health Administration

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

#### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment.

## 8.2.2. Personal protective equipment (PPE)

#### **Eye/face protection**

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended: Indirect Vented Goggles

## Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Do not wear cotton gloves.

Gloves made from the following material(s) are recommended: Neoprene Nitrile Rubber

#### 3M<sup>TM</sup> Scotch-Weld<sup>TM</sup> Instant Adhesive CA4 Clear 05/12/16

Natural Rubber

#### **Respiratory protection**

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapors and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

# **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

| General Physical Form:                  | Liquid   |
|---|--|
| Specific Physical Form:                 | Thin Liquid                                      |
| Odor, Color, Grade:                     | clear, colorless, sharp irritating odor          |
| Odor threshold                          | No Data Available                                |
| рН                                      | Not Applicable                                   |
| Boiling Point                           | 131 °F [Details: CONDITIONS: @ 2mm Hg]           |
| Flash Point                             | >=175 °F [Test Method: Closed Cup]               |
| Evaporation rate                        | Not Applicable                                   |
| Flammability (solid, gas)               | Not Applicable                                   |
| Flammable Limits(LEL)                   | No Data Available                                |
| Flammable Limits(UEL)                   | No Data Available                                |
| Vapor Pressure                          | <=1 Pa [@ 70 °F]                                 |
| Vapor Density                           | 6 [ <i>Ref Std:</i> AIR=1]                       |
| Density                                 | 0.9 - 1.1 g/ml                                   |
| Specific Gravity                        | 1.050 [ <i>Ref Std:</i> WATER=1]                 |
| Solubility in Water                     | Nil  |
| Solubility- non-water                   | No Data Available                                |
| Partition coefficient: n-octanol/ water | No Data Available                                |
| Autoignition temperature                | No Data Available                                |
| Decomposition temperature               | No Data Available                                |
| Viscosity                               | 120 - 180 centipoise                             |
| Hazardous Air Pollutants                | <=0.2 % weight [ <i>Test Method:</i> Calculated] |
| Volatile Organic Compounds              | <=6 g/l [ <i>Details:</i> EU VOC content]        |
| VOC Less H2O & Exempt Solvents          | <=6 g/l  |
| VOC Less H2O & Exempt Solvents          | <=0.05 lb/gal                                    |
| VOC Less H2O & Exempt Solvents          | <=0.6 %  |
| EU Volatile Organic Compounds           | No Data Available                                |

## **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

#### 10.2. Chemical stability

Stable.

#### 10.3. Possibility of hazardous reactions

Hazardous polymerization may occur. May occur in large quantities only.

#### **10.4.** Conditions to avoid

Heat Light

**10.5. Incompatible materials** Strong bases Amines

## 10.6. Hazardous decomposition products

<u>Substance</u>

None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

# **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

**Condition** 

11.1. Information on Toxicological effects

Signs and Symptoms of Exposure

## Based on test data and/or information on the components, this material may produce the following health effects:

## Inhalation:

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

## Skin Contact:

Bonds skin rapidly.

Mild Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, and dryness. Allergic Skin Reaction (non-photo induced): Signs/symptoms may include redness, swelling, blistering, and itching.

Contact through clothing may cause thermal burns.

## Eye Contact:

Bonds eyelids rapidly.

Severe Eye Irritation: Signs/symptoms may include significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.

## **Ingestion:**

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

## **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

#### Acute Toxicity

 Name
 Route
 Species
 Value

#### 3M<sup>TM</sup> Scotch-Weld<sup>TM</sup> Instant Adhesive CA4 Clear 05/12/16

| Overall product               | Ingestion |        | No data available; calculated ATE > 5,000 mg/kg |
|-------------------------------|-----------|--------|---|
| ETHYL CYANOACRYLATE           | Dermal    | Rabbit | LD50 > 2,000 mg/kg                              |
| ETHYL CYANOACRYLATE           | Ingestion | Rat    | LD50 > 5,000 mg/kg                              |
| POLY(METHYL METHACRYLATE)     | Dermal    |        | LD50 estimated to be > 5,000 mg/kg              |
| POLY(METHYL METHACRYLATE)     | Ingestion | Rat    | LD50 > 5,000 mg/kg                              |
| ATE = acute toxicity estimate |           |        |   |

•

## Skin Corrosion/Irritation

| Name                      | Species | Value                     |
|---------------------------|---------|---------------------------|
| ETHYL CYANOACRYLATE       | Rabbit  | Mild irritant             |
| POLY(METHYL METHACRYLATE) | Rabbit  | No significant irritation |

### Serious Eye Damage/Irritation

| Name                      | Species | Value           |
|---------------------------|---------|-----------------|
| ETHYL CYANOACRYLATE       | Rabbit  | Severe irritant |

| ETHYL CYANOACRYLATE | In Vitro | Not mutagenic |

#### Carcinogenicity

For the component/components, either no data are currently available or the data are not sufficient for classification.

## **Reproductive Toxicity**

#### **Reproductive and/or Developmental Effects**

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Target Organ(s)

#### **Specific Target Organ Toxicity - single exposure**

| Name                   | Route      | Target Organ(s)        | Value                            | Species | Test Result         | Exposure<br>Duration  |
|------------------------|------------|------------------------|----------------------------------|---------|---------------------|-----------------------|
| ETHYL<br>CYANOACRYLATE | Inhalation | respiratory irritation | May cause respiratory irritation | Human   | NOAEL Not available | occupational exposure |

## Specific Target Organ Toxicity - repeated exposure

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Aspiration Hazard

For the component/components, either no data are currently available or the data are not sufficient for classification.

#### Please contact the address or phone number listed on the first page of the SDS for additional toxicological information

### on this material and/or its components.

## **SECTION 12: Ecological information**

### **Ecotoxicological information**

Please contact the address or phone number listed on the first page of the SDS for additional ecotoxicological information on this material and/or its components.

#### **Chemical fate information**

Please contact the address or phone number listed on the first page of the SDS for additional chemical fate information on this material and/or its components.

## **SECTION 13: Disposal considerations**

#### **13.1. Disposal methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of completely cured (or polymerized) material in a permitted industrial waste facility. As a disposal alternative, incinerate uncured product in a permitted waste incineration facility. If no other disposal options are available, waste product that has been completely cured or polymerized may be placed in a landfill properly designed for industrial waste. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

## EPA Hazardous Waste Number (RCRA): Not regulated

## **SECTION 14: Transport Information**

For Transport Information, please visit http://3M.com/Transportinfo or call 1-800-364-3577 or 651-737-6501.

## **SECTION 15: Regulatory information**

#### **15.1. US Federal Regulations**

Contact 3M for more information.

## **311/312 Hazard Categories:**

Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No Immediate Hazard - Yes Delayed Hazard - No

### **15.2. State Regulations**

Contact 3M for more information.

#### **15.3.** Chemical Inventories

The components of this product are in compliance with the chemical notification requirements of TSCA.

Contact 3M for more information.

#### **15.4. International Regulations**

Contact 3M for more information.

This SDS has been prepared to meet the U.S. OSHA Hazard Communication Standard, 29 CFR 1910.1200.

# **SECTION 16: Other information**

## NFPA Hazard Classification

Health: 2 Flammability: 2 Instability: 1 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.
