

OILSAFE PREMIUM TRANSFER PUMP

Feature rich and will handle up to ISO 680 fluids

Color-coding is by way of a removable colored collar
 Pump as pictured here:
 Part# 102308 – Red

Available in 10 colors:

Pictured with: 10 Liter / US Quart Drum & Red Utility Lid

Pictured with: Yellow Utility Lid & Yellow Drum Label Kit

The OilSafe Premium Transfer Pump is for those customers seeking advanced functionality to meet their lubrication reliability goals.

Sharing the unmatched efficiency and reliability of the OIL SAFE Standard Pump, this heavy duty discharge pump is color-coded, has an ultra comfortable D handle grip design and has fully serviceable internals for maximum life.

The OIL SAFE Premium Pump can be easily converted for quick connect use. Quick connects allow the container to be filled through the pump body (without removing the lid) and enables attachment to machinery fill points by quick connect, via the pump discharge hose. Quick Connect Kits and replacement parts are available.

Features Include:

- Highly efficient with approximately 12 strokes per liter, and capable of handling ISO 680 viscosity oils.
- Supplied standard with a 5 foot, anti-drip outlet discharge hose.
- Removable color-coded body collars in a choice of 10 different colors. Match the color-coded OIL SAFE Premium Pump to the color-coded OIL SAFE Utility Lid.
- Unique OIL SAFE Pump non-return discharge valve that massively improves pump efficiency, resulting in less effort and time required for oil top-ups.
- Premium Pump comes standard with Viton O-Rings for oils where solvent content may be higher.
- Ultra comfortable D-Handle Grip Design.
- Fully serviceable pump internals via quick release body collar for maximum life.
- Premium materials of construction for maximum reliability.
- A range of optional pump accessories are available including:
 - Quick connect kits (Part # 920220 – 5' Hose / Part #920225 – 10' Hose)
 - Removable discharge hoses (Part # 920209 – 10' Hose, 1/4" NPT male end)
 - 10 Micron Breather (Part # 920250)
 - For smaller fill hole applications add a Pump Reducer Nozzle accessory (Part # 102030) to the outlet nozzle.
- Match with an OIL SAFE Utility Lid and a 3, 5 or 10 liter/US quart OIL SAFE Drum.
- Manage your fluid transfer from bulk storage to point of use. The OIL SAFE unique Visual Lubrication System of products combines to identify, protect, and reduce machinery down time.

(See Premium Pump with Yellow Drum Label Kit pictured at left.)

NOTE: Photo shows optional 10 Micron Breather, Quick Connect Hose and Adaptor. Actual quick connect fittings NOT included.
