

PURA-FIT[®]

Foam Earplugs

FIT TO BE TRIED

Pura-Fit[®] earplugs are tapered so they are easier to insert in any size ear canal. And they are longer too, so they are easier to grasp.

MORE COMFORT, LESS COMPLAINING

Pura-Fit[®] is designed for increased compliance and fewer complaints. The special foam is formulated for softness and comfort, and the outer surface is smooth, so it doesn't irritate the ear canal.

NRR 33. HIGHEST INDEPENDENTLY TESTED NRR AVAILABLE

Pura-Fit[®] is independently tested to ANSI S3.19-1974. So you know you're getting excellent protection against industrial noise.

WARNING TO USER

1. Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn.
2. Failure to follow all instructions could result in hearing loss or injury.
3. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
4. Pura-Fit must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.
5. Overprotection can be dangerous. The wearer must be able to hear warning signals.
6. Wearers with hearing loss should exercise extreme caution.
7. It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace.
8. Use caution when working around machinery or other equipment to ensure neck cord does not become caught or entangled.
9. Failure to follow these warnings could result in serious injury or death.
