Narcotic Cabinet with Combination Lock - #181680

Constructed of durable, heavy duty stainless steel and meet schedule 2 drug storage requirements. They have strong piano hinged doors and a two door, dual locking system to ensure content security. The outside door has a triple bolt push button combination lock which opens to a second door secured by a flat key lock with a heavy gauge locking cam. Three extra keys are included for the flat key lock. The ambi top of the cabinet lifts so that the unit can be flipped to accommodate left or right outer door access. Its four aluminum shelves are adjustable and increase storage capacity. Pre-drilled holes that are reinforced with stainless steel mounting discs ensure stable wall attachment. Units are warranted for 10 years with 1 year on the locks.
