GENERAL ASSEMBLY TIPS AND TROUBLESHOOTING DURING ASSEMBLY:

- *Before you start assembling, make sure you have all the parts and necessary hardware by doing a quick inventory.**
- *Follow the assembly instructions step by step, and do not skip any unless advised to do so by RTA PRODUCTS' Customer Service.**
- *On each step, and to avoid misalignments, always leave screws loose, and do not tighten them until all are in place.**
- *In wood panels, the laminate might be covering the holes.**
If there are no visible holes: Pass the tip of your finger around the area where the hole should be, and press against the surface to feel the indentation.
If the hole looks too small for the screw or bolt: carefully perforate the laminate with the tip of a pen.

- *In wood panels, some might have inserts that look like screws. Those inserts are either nuts or cam locks. Make sure they are aligned to receive the screws or bolts.**

- *Make sure to use the correct screws or bolts, and do not overtighten them. Using wrong screws or overtightening them might cause damage to the parts, and such damage is not covered by the product's warranty.**

**CONSEJOS PARA RESOLVER PROBLEMAS DURANTE EL ENSAMBLAJE:**

- *Antes de comenzar, haga un inventario rápido para asegurarse de tener todas las partes y tornillos necesarios.
- *Siga las instrucciones paso por paso, y no se salte ninguno a menos que se lo aconseje un representante de Servicio al Cliente de RTA PRODUCTS.
- *Para evitar desalineamientos, en cada paso que haga deje los tornillos medio puestos, y no los apriete hasta que todos estén colocados en sus lugares.
- *En paneles de madera, el laminado podría cubrir las perforaciones.
Si no ve los hoyos: Pase la punta del dedo por el area y presione contra la superficie para encontrar el hoyo.
Si el hoyo luce muy pequeño para el tornillo o perno: Con cuidado perforo el laminado con la punta de un lapicero (bolígrafo, pluma).

- *Algunos paneles pueden tener insertados lo que parecen tornillos, pero son tuercas o cerrajes: Asegúrese que estén alineados para recibir el tornillo o perno.

- *Asegúrese de usar los tornillos y pernos correctos, y no los apriete demasiado. Usar tornillos/pernos de tamaño incorrecto o sobre-apretarlos puede causar daño a las partes, lo cual no es cubierto por la garantía del producto.

▪ STEPS

▪ PASOS

1

- Insert the Studs (4) at the bottom of the Left, Central & Right Structures (1,2&3).
- Inserte los topes (4) en las patas de las estructuras izquierda, derecha y central (1,2,3).

2

Before doing this step, make sure that all the nuts in the panel are properly aligned to receive the screws!

Antes de hacer este paso, asegúrese que las tuercas en el panel estén alineadas para recibir los tornillos!

▪ SCREWS ▪ TORNILLOS

B 6X50 MM

4PCS

- Use screws B to assemble the Back Panel (5) between the Left & Central Structures (1 & 2).
- Use tornillos B para ensamblar el panel posterior (5) entre las estructuras central e izquierda (1, 2).

3

Before doing this step, make sure that all the nuts in the panel are properly aligned to receive the screws!

Antes de hacer este paso, asegúrese que las tuercas en el panel estén alineadas para recibir los tornillos!

▪ SCREWS ▪ TORNILLOS

B 6X50 MM

4PCS

- Use screws B to assemble the CPU Panel (7) between the Central and Right Structure (2&3).
- Use tornillos B para ensamblar el Panel de Cpu (7) entre las estructuras Central y Derecha y así quedaran conectadas las (3) estructuras.

4

▪ SCREWS ▪ TORNILLOS
