Global Exhaust Fans Help Ventilate And Cool Manholes, Tanks And Crawl Spaces. Global blowers are made of steel housing with powder coated steel wire safety guards for long lasting durability. Lightweight and portable with an easy-carry handle. Rubber feet on base minimizes noise and reduces vibrations. Includes 10' L power cord. Ducting provides flexible exhaust vents that easily attach to blower fan. Ducts are made with 2-ply reinforced polyvinyl that is flame retardant and withstands -20° to 180°F temperatures. Blade diameters vary from 8-16 inches and made of aluminum alloy. Global ventilation fan is housed in heavy gauge aluminum. Available styles are Blower Fan, Blower Fan with 16 or 32 feet of ducting. 1 Year Limited Warranty.
