

# Global Industrial™ Microfiber Cloths

**Global Industrial™ Microfiber Cloths** are constructed of quick drying 80% Polyester and 20% Polyamide fiber that can be laundered and reused up to 500 times.

- Microfiber texture increases effective surface area, allowing cloths to grab fine particulates.
- Can be used wet or dry - no chemicals required.
- Glass cleaning microfiber cloths with special suede texture erases marks and smudges.
