

# Picnic Tables

## WOOD PICNIC TABLES

Heavy Duty commercial grade wooden picnic table is perfect for campgrounds, parks, playgrounds and other outdoor municipalities. This table features solid pine planks, 9"W and 2" thick, that are environmentally sound. A non-arsenic based treatment on the wood protects against decay, rot, insect infestation and biodeterioration. Solid heavy duty galvanized steel frame is built to last.

695502	72" Wood Picnic Table

## RECYCLED PLASTIC PICNIC TABLES

Commercial grade recycled plastic picnic table features 5 solid resinwood planks and a heavy duty galvanized steel base. Resinwood is a proprietary tri-blended recycled plastic lumber which saves plastic from ending up in landfills. This material is virtually maintenance-free and won't ever need to be sanded, painted, refinished or replaced. It won't crack, break or warp under normal conditions and won't rot, mildew or become infested with termites. Slats are 1.5" thick.
