

Refrigerated Merchandisers

Refrigerated Merchandisers offer a temperature controlled environment to display food and beverages for food service, commercial, retail, and other applications. Units feature a powder coated steel exterior construction that is corrosion resistant providing years of dependable service. The double pane, single glass door offers full content access, high visibility, and energy efficiency. PVC coated wire shelves allow content storage while reducing required maintenance. The bottom mount compressor is designed to be easily serviced and allows for light duty storage on top of the unit. Includes front panel temperature controls and power switches for convenient user access. 8' power cord. Temperatures range from 33 - 40°F. Color: Black. NSF Certified.
