Introducing the new...

3M™ Particulate Respirator 8210V, N95 with 3M™ Cool Flow™ Valve

This disposable respirator offers the same great protection as our classic 8210, N95 particulate respirator but with the addition of the proprietary 3M™ Cool Flow™ valve. It is ideally suited for many work settings that involve heat, humidity, or longer periods of wear.

The 3M™ Particulate Respirator 8210V, N95 is NIOSH approved and helps provide reliable worker respiratory protection against certain non-oil based particles. The proprietary 3M™ Cool Flow™ valve is designed for easy exhalation and reduces heat build-up inside the respirator to help keep the wearer more comfortable. Testing shows the atmosphere inside the 8210V respirator with a 3M™ Cool Flow™ valve is on average 5.5° F cooler than a similar respirator without the valve.*

To learn more and see the 3M™ Cool Flow™ valve in action visit 3M.com/CoolFlow.

Take your health and safety personally. Take respiratory protection seriously.

* Testing conducted in a 3M laboratory. Testing protocol was reviewed and approved by an expert from The University of Minnesota. The testing performed by 3M is not a part of the testing and certification conducted by NIOSH.

3M™ Particulate Respirator 8210V, N95

Classic Protection with the 3M™ Cool Flow™ Valve

The 8210V respirator is the newest addition to 3M's comprehensive line of N95 particulate respirators.

3M™ Cool Flow™ Valve

- Offers cool comfort and easy exhalation. Reduces heat build-up inside the respirator to help keep the wearer more comfortable.

Adjustable Nose Clip

- Helps reduce the potential for eyewear fogging.
- Allows for a more custom fit and secure seal.

3M Proprietary Filter Media

- Incorporates proprietary technology with advanced electrostatically charged microfiber filter media, designed for easy breathing.

Elastic Headbands

- Two-strap design with dual point attachment helps provide a secure fit.
- Contains no natural rubber latex components.

Nose Foam

- Cushioning foam for added comfort on the nose.

Potential Applications Include:

- Bagging
- Grinding
- Sanding
- Sawing
- Sweeping
- Woodworking
- Other dusty applications

 - Respirators per box: 10
 - Boxes per case: 8
 - Respirators per case: 80

WARNING

These respirators help protect against certain airborne particulates. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 29 CFR 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see package instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

3M Worldwide, World Class

3M develops, manufactures and markets over 50,000 different consumer, commercial, industrial and health care products. We have manufacturing operations in 60 countries and do business in more than 200 countries. 3M can help you achieve corporate goals, meet government standards, and contribute to a safe, healthier and more sustainable work environment.
