3M™ Aura™ Particulate Respirators 9210+ and 9211+, N95

A Whole New Level of Comfort and Convenience

Introducing the...

3M™ Aura™ Particulate Respirators 9210+ and 9211+, N95

3M continues its long tradition of innovation with the introduction of our Aura™ particulate respirators. These new disposable respirators maintain the benefits of the 9210 and 9211, but add new features for additional comfort.

The 9210+ and 9211+ respirators take convenience and comfort to the next level with comfortable braided headbands, contoured nose panel, and a chin tab for ease of positioning, donning and adjustment. In addition, the unique Aura™ respirator design features an embossed top panel that helps reduce the potential fogging of eyewear from warm, moist exhaled airflow. The Aura™ series particulate respirator provides all of these benefits in an individually wrapped package for your convenience and protection from contamination before use.
The 3M™ Aura™ Series Particulate Respirator, N95
The Aura™ Particulate Respirators 9210+ and 9211+ have all the same great features as your current 9210 or 9211 respirator PLUS:

NEW FEATURES

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>

WARNING

These respirators help protect against certain airborne particulates. Before use, the wearer must read and understand the user instructions provided as part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 29 CFR 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards 294.4 requirements must be met and/or requirements of the application jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see package instructions, supervisor or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.
