### DESCRIPTION

- Versatile yellow HazMat sorbent for cleaning up aggressive and unknown chemicals
- A single layer of polypropylene fibers bonded "sonically" together
- Designed to absorb a wide range of toxic, flammable, corrosive and aggressive chemical spills
- Very fine, uniform-sized fibers increase loft and absorbency
- Perforated for easy use

### KEY FEATURES

- Yellow color code signals emergency use
- Great value, versatility and reliable performance
- Very fast wicking, which reduces the clean-up time
- Dimpled surface reduces lint, increases strength and speeds absorption
- Combines high loft with drapability

### APPLICATION

The go-to sorbent for emergency spill response. A great choice to safely clean up a wide range of toxic, flammable, corrosive and aggressive chemical liquids. Use them anytime there is a spill of an unknown liquid.

### NOTES

- Be aware of compatibility of chemicals when using this product
- Ensure that disposal of these sorbents complies with all local, state and federal regulations
