

Liquid Drain Opener

Nonacid alkaline drain opener to dissolve and remove obstructions in clogged or slow-running drains. Removes grease, hair, food, paper, and other organic materials. Highly concentrated solution goes right through the water and directly to the source of the clogged or slow-running drain. Nonfuming, no acid or bleach odors, safer to use on plumbing. Regular use prevents plumbing problems and water damage caused by backed-up drains. Liquid formulation is easier to use, works faster, and goes directly to the source of the problem - even in cold or stagnant water. Use in drains, grease traps, and sump pits.

DIRECTIONS

Read the entire label and MSDS for proper use, handling and storage before using this product.

Larger or smaller drains may require more or less product.

1. Pour up to 16 oz. of Liquid Drain Opener into clogged drain.
2. If drain has water backup, pour product directly into water near drain.
3. Pour additional product if drain is not open in 15 minutes.
4. Flush with water after drain is open.

GLOBAL FACTS

- Odorless
- Fast-acting
- Highly concentrated
- Heavier than water - goes directly to the source of the problem
- Bleach free
