

Foaming Coil Cleaner

- Concentrated foaming cleaner and degreaser for condenser and evaporator coils, mechanical equipment and air filters
- Non-acid, low fuming, heavy foaming, water soluble. Removes grime, oil, grease, etc. from air conditioning, air handling and all mechanical equipment, electronic and permanent air filters
- Biodegradable
- To be used with *SpeedClean's* CoilJet™ Coil Cleaner

How To Use:

1. Fill the chemical tank of the CoilJet™ with Foaming Coil Cleaner
2. Apply cleaner to surface
3. Allow 5 to 10 minutes soaking time before rinsing (rinsing an operating evaporator coil is not required)
4. **SPECIAL NOTE:** On waxed and painted surfaces, the Foaming Coil Cleaner should be rinsed off within a minute of application to avoid the possibility of removing the wax or fading the paint

Important Safety Instructions

- Read and understand all instructions before using this chemical. Failure to follow all instructions listed below may result in serious personal injury.
- Make sure that there is adequate ventilation in the work area.
- Do not mix chemicals – it may cause damage to the unit or cause dangerous life threatening chemical reactions
- Avoid contamination of food
- **WARNING!!! ALKALINE MATERIAL:** Avoid contact with skin, eyes and clothing. Wear chemical splash goggles or face shield and impermeable (rubber) gloves when handling. Use other protective clothing or equipment as necessary to prevent contaminating clothing. Detergents and chemicals may cause injuries to the eyes and skin.
- Do not take internally
- Keep out of reach of children

First Aid:

- **EYES:** Flush with plenty of water for 15 minutes. Seek medical attention.
- **SKIN:** Wash with plenty of soap and water.
- **INGESTION:** Drink large quantities of milk or water. Seek medical attention immediately. (Never give anything by mouth to an unconscious person)
- **INHALATION:** Remove from exposure; provide fresh air and rest
