Waterbased PU and NBR coating

- Ansell’s HyFlex 11-435 glove is the first cut-resistant ISO cut level C on the market made with water-based polyurethane & NBR
- Resistance to cuts and burrs. A seamless plaited glove for very good fit, dexterity and flexibility. Excellent breathability and cool feeling
- Water-based polyurethane & NBR enhances the dexterity and comfort of the glove, as the polyurethane doesn’t penetrate inside it

**Industries**
- Automotive
- Glass Industry
- Machinery & Equipment
- Metal Fabrication
- Transport Equipment

**Applications**
- Handling of sharp-edged objects, pre-assembling, cutting of small dry or lightly oiled parts and maintenance.
- Handling of glass sheets, sharp-edged objects
- Handling of metal sheets, cutting of dry, painted or galvanised pieces
11-435
Water-based polyurethane & NBR glove with unmatched dexterity and high cut protection

Performance Profile
• Eco-friendly, water-based polyurethane palm coating.
• Enhanced dexterity and comfort due to no coating strike through.
• Gray palm coat hides soil and provides long wear reducing overall replacement costs.

Key Features
• Unique combination of Dyneema®, Nylon, Lycra®, and glass fiber.
• Ultra strong fibers provide extreme resistance to cuts and burrs.
• Anti-static for improved safety in critical areas.
• Silicone free.
• Oeko-Tex® 100 approved.
