GASTRONORM

Permanent label
Etiqueta Permanente

The purple colour of Araven's airtight container identifies and differentiates from the rest of the containers, food for customers with allergies or food intolerances, in order to separate and protect it from possible contamination by substances that may trigger an allergic reaction. Correct identification will avoid any inadvertent intake of such foods by this risk group.

The special permanent label is to identify the allergen on Araven's airtight container, preserving food with every guarantee for customers who suffer food allergies or intolerances. In addition to the total tightness of these airtight containers, they are specially designed to preserve and protect foods from any risk of contagion and cross-contamination by food allergens.

Dishwasher-proof.

El Color Morado del Hermético Araven identifica y diferencia el alimento de un cliente que padece alergia o intolerancias alimentarias para independizarlo del resto de contenedores y protegerlo de posibles contaminaciones de sustancias potencialmente alérgicas para él.

Al ser identificado correctamente ayudamos a ser ingerido inadvertidamente por este grupo de riesgo. Con la etiqueta permanente especial identificamos el alérgeno en el Hermético Araven, conservando con todas las garantías los alimentos para los clientes que padecen alergias o intolerancias alimentarias.

Además la completa hermeticidad de los contenedores, está especialmente diseñada para conservar con la máxima garantía y proteger los alimentos de riesgo de contagio por contaminación cruzada por alérgenos alimentarios.

Permite el lavado en el lavavajillas.
