**FDA APPROVED FOR USE – WITHOUT A PRESCRIPTION!**

**CELOX Stops Bleeding Fast – Even for Those Taking**

✓ **Coumadin** ✓ **Warfarin** ✓ **Heparin** ✓ **Plavix** ✓ **Pradaxa**

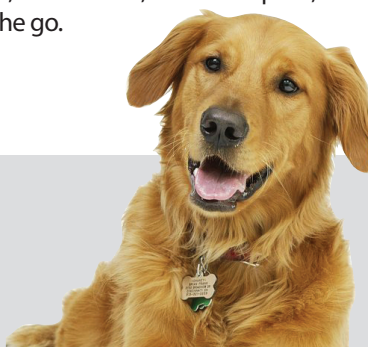

If you are one of the 50 million people in the U.S. who takes a blood thinner like Coumadin, Warfarin, Heparin, Plavix or Pradaxa, or are on an aspirin regimen, you know that stopping even minor bleeding can be a challenge. While you can't control the need to take these medications, you can control the anxiety and fear of bleeding by being prepared – with **CELOX**!

**CELOX** is FDA-approved and is used by military, medical and emergency response professionals worldwide. **CELOX** quickly, comfortably and safely stop nosebleeds and moderate or even severe bleeding in seconds. It is easy to self-administer or use by those with no emergency or medical training. And once bleeding is stopped, **CELOX** can be easily washed away with water.

**CELOX – Great for Men, Women, Seniors, Children, Grandchildren – Even Pets!**

- **CELOX** is lightweight, compact and affordable – perfect for home, travel and on the go.
- Keep it close by in your medicine cabinet for your spouse, yourself, your busy grandchildren – and for pets!
- Great for pets - when nails get trimmed too closely or for cut pads or paws and other bleeding.
- **CELOX** can be stored or taken anywhere and its effectiveness is not diminished by exposure to heat or cold.

- **CELOX** is easy to keep on hand: At home in the kitchen, in the garage or at the workbench; alongside carpentry, mechanic's or gardening tools; keep it in your car or RV, in your purse, briefcase, gym bag, backpack, suitcase, tool box, tackle box, at work, at the cabin, at the campsite, on the boat or on the go.

## Are You Prepared?

### When it Comes to Bleeding, Which Would You Choose –

#### A Trip to the Emergency Room or a Trip to Your Medicine Cabinet?

You may still need to seek medical attention, however, stopping bleeding fast is an important first step – you can be proactive until you seek treatment or until medical help arrives – **CELOX** Stops Bleeding FAST!

#### Or For Your Pet ...

#### A Trip to the Medicine Cabinet or a Trip to the Vet?

When nails are clipped too short, for cut pads or paws or other bleeding – **CELOX** works quickly and does not sting or burn. **CELOX** – all you need to STOP the bleed!

#### Accidents Happen. Injuries Happen. **CELOX** Works.

BE PREPARED with **CELOX** – **CELOX** STOPS BLEEDING FAST

**For Home, Work, Leisure & Travel**  
**DON'T GET CUT WITHOUT IT!**

#### **CELOX Granules** – 10 Packs/2g Each

CELOX Granules are a flaky powder contained in sterile pouches that are small, flat, lightweight and easy to store and carry. To use - tear it open, pour it on, cover and apply pressure. It's that simple! **CELOX** easily washes away with water or saline. **CELOX** is completely bio-compatible and bioabsorbable. Any remaining granules are safely, naturally absorbed by the body

#### **CELOX Gauze Roll** [5' x 3" Roll] & **Gauze Pads** [8" x 8" Pad]

CELOX Granules are bonded to the surface of **CELOX** Gauze, which has a more stable, denser consistency than traditional thready gauze and does not compact under pressure. Just pack or cover the bleeding area and apply pressure. Most bleeding is stopped in seconds.

#### **CELOX Nosebleed Dressing** – 5 Pads/Pack

The small, specially-shaped pad is bonded with **CELOX** granules. Fold the pad in half, comfortably insert into the nostril and apply external fingertip pressure to stop bleeding fast – typically within 30 – 60 seconds. Removing pad does not cause a re-bleed.
