

# HEAT STRESS SOLUTIONS

KEEP YOUR COOL WHEN THE WORLD GOES VOLCANIC. // [WWW.ERGODYNE.COM](http://WWW.ERGODYNE.COM)

## Chill-Its // MICROFIBER COOLING

Dampen chemical-free microfiber towel to activate cooling. UPF 50+ for protection against harmful rays.

## Chill-Its // FR COOLING

Soak in water 2-5 minutes to activate polymers for cooling relief. Modacrylic cotton blend fabric also provides superior FR protection.

## Chill-Its // PVA COOLING

Dampen this synthetic space-age towel to create a cooling aid significantly colder than ambient air.

## Chill-Its // DRY VEST

Fill vest with 13-20oz (400-600ml) of water and enjoy up to 3 days of dry evaporative cooling.

## Chill-Its // PHASE CHANGE

Constant 64°F (18°C) keeps workers cooler, safer, and more productive while providing FR protection.

## Chill-Its // NECK SHADES

Hi-vis neck shades keep sun off workers necks while delivering cool comfort. Brim with shade offers universal design to fit most hard hats.

## Chill-Its // HYDRATION

Lightweight and low profile, these portable water sources offer unique features to help keep workers hydrated and safe.

## SHAX // PORTABLE WORK SHELTERS

Work shelters provide instant relief from Mother Nature's harshest elements; sun, wind, and rain.
