VESTIBULAR BALANCE DISC

Great for
sitting and
standing

The large inflatable vestibular disc mimics both the movement and shape of the inflatable ball when used as a seat. It acts as a dynamic cushion to activate major muscle groups. Use it on the floor as a standing disc and balance board for balance training, proprioception and strengthening of the lower extremities. Can be deflated to 1" thickness (mushy) or inflated to 2" thickness (firm). Each disc has one nubby side for tactile feedback and stimulation and one flat side. Available in colors: red, green blue and yellow.

Latex free material cleans easily with mild soap and water.
