

Earmuff Fitting Instructions

Keys to Successful Hearing Protection with Earmuffs

EXAMPLES OF EACH STYLE SHOWN FOR REFERENCE

Headband	Folding	Multiple Position	Cap-Mounted	Neckband
Thunder® T3 	Leightning® L0F 	Viking® V3 	Thunder® T2H 	Leightning® L1N 
<p>1</p>  <p>Place earcups over each ear.</p> <p>2</p>  <p>Adjust the headband by sliding the headband up or down.</p>	<p>1</p>    <p>Fold out the earcups as shown.</p> <p>2</p>  <p>Place earcups over each ear.</p> <p>3</p>  <p>Adjust the headband by sliding the headband up or down.</p>	<p>1</p>  <p>Place the earcups over each ear.</p> <p>2</p>  <p>Adjust the headband by sliding the headband up and down.</p> <p>3</p>  <p>Multiple-position earmuffs can be worn over-the-head, behind-the-head or under-the-chin.</p> <p>4</p>  <p>When the earmuff is worn with the headband behind-the-head or under-the-chin, the headband strap must be attached to the slot in the upper part of the earcup as shown.</p>	<p>1</p>  <p>Attach adapters to each side of the hard hat by sliding them into the slots.</p> <p>2</p>  <p>Attach each earmuff into its adapter by sliding the earmuff housing down into the adapter.</p> <p>3</p>  <p>Ensure a proper fit by firmly pushing down on the earcup until you hear it click into place.</p> <p>4</p>  <p>Ensure that the earmuff is firmly fastened by lifting the arm attachment up and down.</p> <p>Important Note: To remove the hardhat with attached earmuffs, make sure to firmly pull earcup from ear until you hear a click sound. Do not pull hard hat off while earmuffs are clicked into place as this can result in injury.</p>	<p>1</p>    <p>Adjust the length of the headband strap between the earcups so the earmuff fits well on top of the head.</p> <p>2</p>  <p>Place earcups over each ear.</p>

WEAR

- Read and follow all earmuff fitting instructions
- Move hair from underneath ear cushions

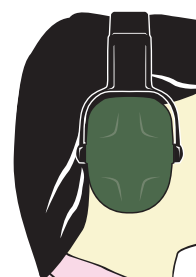

SELECTION

- Avoid overprotection in minimal noise environments – in selecting the best earmuff for your situation, consider noise levels and your need to communicate with co-workers or hear warning signals on the job

MAINTENANCE

- Regularly inspect earcups and ear cushions for cracks and leaks – discard if earcups are visibly damaged or compromised
- Clean earcups and ear cushions regularly with mild soap and water. Do not dip in water, and do not treat with other substances.
- Replace ear cushions and foam inserts every 6-8 months under normal wear, every 3-4 months with heavy use or in humid/extreme climates. Hygiene kits are available for all earmuffs.

DO's and DON'Ts of Howard Leight Earmuffs

Firm Seal
Do seal the cushions firmly against the head.

Avoid Obstructions
Do not allow hair to obstruct the ear or the earmuff's secure fit in any way.

Cover Ear Completely
The position of the earcups should never be crooked or askew over the ear.

DISCLAIMER: If the above-mentioned recommendations are not followed, the protection and function afforded by the earplugs may be severely impaired. This may cause consequences for the user for which Honeywell Safety Products and its affiliated entities, can not be held responsible. Honeywell Safety Products can not guarantee that any type of warning signals including communication with other people in the surroundings can be heard and understood by the wearer of this hearing protector. The sound level and the frequency content of the warning signals as well as of the background noise can vary in different situations.

WARNING: All hearing protection affords limited protection. The user is responsible for the proper selection, use, care and maintenance of this device. Improper selection (including under/over protection), use or maintenance may lead to serious hearing loss. If there are any questions concerning this product, contact your safety supervisor or Honeywell Safety Products.
