

HEATWORX[®] REINFORCED

UP TO 450°F

U.S. PATENT #D514771
PATENT PENDING

HEATWORX[®] REINFORCED

Ironclad's patent pending Hotshield[®] palm technology combines high dexterity with heat, cut, abrasion and shrink resistance. Add that to oil repellency and washability and you have a glove that truly does it all.

Kevlar[®] Inner Liner
For heat and cut resistance.

Kevlar[®] Blended Shell & Stitching
For durability and protection in high heat environments.

Ironclad Hotshield[®] Technology
Heat resistance without sacrificing dexterity.

Hotshield[®] Reinforcements
Reinforced in critical areas for maximum durability.

Patented Palm Design
Excellent dexterity and durability.

Breathable, Flexible & 100% Machine Washable
For comfort and convenience.

ADDITIONAL FEATURES

Extended gauntlet cuff for added protection and comfort

BEST USES

Fabrication, Metal Working, Manufacturing & Assembly, Hi-Temp Automotive Work, Welding

HW4-02-S HW4-03-M HW4-04-L HW4-05-XL HW4-06-XXL
