

CEMENT BOARD FASTENED RIGHT

BACKER-ON®

For HardieBacker®

Stikfit™ T25 Bit
for one-handed installation

ROCK-ON®

For Durock®, WonderBoard®

- Serrated head design for flush seating even at an angle
- T-25 bit provides Stikfit for easy one-handed installation
- Patented sharp point offers immediate pick-up and eliminates the need to pre-drill
- Patented design allows attaching close to edge on cement board, drastically reducing fractures or blow outs
- Premium corrosion resistant finish
- Use to attach cement board to wood or light gauge steel studs
- Ideal for use in high moisture areas
