

# Trilites 993

## > Tripolymer formula for protection against chemical splashes

- Optimal thickness delivering maximum tactility with superior durability.
- Unique triple polymer blend for enhanced comfort and resistance.
- Protection against chemical splashes.

### Laboratory

- Research, analysis, handling of precision parts
- Research, analysis, manipulation of precision parts, optical processes

### Specific features

Unique exterior polymer finish provides extraordinary grip when handling wet/dry glassware in labs

Trilites	993
<b>Material</b>	Natural latex, neoprene and nitrile
<b>Length (inches)</b>	10
<b>Thickness (inches)</b>	0.006 (6 mil)
<b>Wrist</b>	Rolled cuff
<b>Colour/Color</b>	Purple
<b>Interior finish</b>	Chlorinated
<b>Exterior finish</b>	Non-slip grip
<b>Size / EAN</b>	6 S 7 M 8 L 9 XL
<b>Packaging</b>	100 gloves/box - 1000 gloves/carton

Cat. 3
