- **COST SAVINGS**

# The Most Popular Earplug Dispenser On The Market

## Keep An Earful Within Easy Reach

With the PlugStation, you can afford to put ear plugs in all the places they're needed. Hang one near workstations, another outside the restrooms and another in the break room. Easy, convenient access to hearing protection will help ensure that the earplugs are being used and will save time. Plus each PlugStation comes with a free bracket.

## Hygienic From Dispenser To Your Hand

Unlike competitive dispensers, PlugStations are sealed to ensure that the plugs stay clean and sanitary. With PlugStations, earplugs drop right into the palm of your hand so you don't have to worry about plugs falling on the floor or trays collecting dust and contaminants. When the PlugStation is empty simply dispose of it and hang a new one – no fumbling with messy, hard to use refills.

## Increased Compliance And Cost Savings Too

Convenient, quick access and ease of use lead to higher compliance. Plus, because workers take one pair at a time there is no wasteful grabbing of multiple pairs or pocket fillups that end up getting trashed without being used. Less waste means more cost savings.

## Uncorded PlugStations Come In Two Sizes – 250 Pairs & 500 Pairs

Choose the size that best suits your needs.

Turn knob clockwise to dispense earplugs

## Available Earplugs For PlugStation

Choose from a variety of the most popular earplugs from Moldex made of extra-soft, lightweight, PVC-Free foam for all-day comfort and compliance. All Moldex hearing protection is independently tested to ANSI S3.19-1974 by Michael & Associates, Inc., State College, PA. Our NRR 33dB earplugs are the highest independently tested and our Glide Foam has the highest independently tested NRR for a no-roll earplug.

Pura-Fit®
