

PowerPack Series

Portable Power System

Seamless, Cordless AC Power ANYWHERE You Need it!
www.newcastlesys.com/powerpack

The **PowerPack Series Portable Power System** provides quiet, seamless AC power for as long as 12+ hours at a time. This sturdy, compact unit is ideal for powering computers, printers, POS Systems, scales, testers and any other electronic hardware. At the end of your shift or use, simply plug the unit into a standard wall outlet to recharge. Eliminate the need for extension cords or noisy generators!

Housed in a sealed but fully ventilated steel cabinet, the PowerPack Series comes standard with an inverter(modified sine wave, input 12 volts, output 115VAC, 60 Hz), battery, smart charger (20 Amp, with automatic shut off) and fusing system. Operating temperatures range from 32F to 120F.

Features Include:

- Integrated (6) outlet powerstrip
- Digital meter with color coded LED displays that provide the status of the battery and confirmation of the power source
- Visual and audible low voltage alert
- Integrated side handles and cord reel holder
- Easy access to slide batteries in and out of cabinet
- Optional wheel-base tote system for true portability
- Optional bracket system to secure unit to a cart, vehicle, or other surface

Typical PowerPack Applications:

Non-powered equipment carts ● Outdoor mobile concessions ● Remote display areas ● Areas where power is not available such as far corners of the warehouse, loading docks, remote storage areas, and much more.
