SAFCO ACTIVE

- non-slip, easy-to-clean seat cushion may help to reduce pressure points to potentially help provide better circulation
- pivoting seat leg encourages dynamic movement
- supports leaning posture – that may encourage a hip-to-torso range of 130 to 135 degrees which may allow for the least amount of pressure on your spine and connecting muscles
- seat pan tilts with knob up to 5 degrees to support hip flexibility
- designed to adjust to body's movements; It may help the body to be active, relax the spine, engage muscles and may help increase circulation
- American-made wood base adjusts to accommodate most users' heights; accommodates heights between 4'11" and 6'8"
- discreetly designed wheels for easy portability
- post folds for easy storage
- Anti-Fatigue Mat (included) may help to relieve stress on your feet and lower body while leaning/perching (use is optional)
- works with any standing desk/table and is rated up to 300 lbs.
- nubuck seat cushion option is a synthetic sueded leather fabric combined with foam seat
- designed by Martin Keen
