

# Material Safety Data Sheet

Update: 07/11/2013

Version: 1.1

**ACRYLITE® - Sheets/Rods/Tubes**

Page 1 of 7

## 1. Chemical Product and Company Identification

### ACRYLITE® - Sheets/Rods/Tubes

Supplier:

**Evonik CYRO LLC**  
299 Jefferson Road  
Parsippany, NJ 07054-0677  
+1-973-929-8000

Product Information Number 1-207-490-4242  
24 Hour Emergency Number, CHEMTREC 1-800-424-9300

**Product Use:** building glazing, light advertising, furniture, trade-fair booth design, displays, decoration, Industrial use

---

## 2. Composition/Information on Ingredients

**This material is classified as not hazardous under OSHA regulations.**

<u>Ingredients</u>	<u>CAS Reg. No.</u>	<u>Weight %</u>
acrylic copolymer	trade secret	100

NJTSR # 56705700001-7119P

See Section 8, Exposure Controls/Personal Protection

---

## 3. Hazards Identification

### Emergency Overview

Color: transparent  
Appearance: sheets  
Odor: odourless

**Under normal conditions of use, this product is not expected to create any unusual industrial hazards.**

### Primary Routes of Exposure

Eye contact (if exposed to chips)

### Potential Health Effects

#### Inhalation

No hazard expected in normal use.

#### Eye Contact

No hazard expected in normal use.

Material can cause the following:  
- mechanical irritation

# Material Safety Data Sheet

Update: 07/11/2013

Version: 1.1

**ACRYLITE® - Sheets/Rods/Tubes**

Page 2 of 7

## Skin Contact

Material can cause the following:  
- cuts (when using cut sheets)

## Ingestion

No hazard expected in normal use.

## Potential Environmental Effects

See SECTION 12, Ecological Information

---

## 4. First Aid Measures

### First Aid Procedures

#### Inhalation

No specific treatment is necessary since this material is not likely to be hazardous by inhalation.

#### Eye Contact

If mechanical irritation occurs flush eyes thoroughly with a large amount of water, consult a physician if irritation persists. (possible during machining processes)

#### Skin Contact

No specific treatment is necessary since this material is not likely to be hazardous.

#### Ingestion

Ingestion is not considered a potential route of exposure.

#### Note to Physician

None known  
no

---

## 5. Fire-Fighting Measures

**Flash point** > 250 °C ( ASTM D 1929-68 )  
> 480 °F ( ASTM D 1929-68 )

**Ignition temperature** > 400 °C ( ASTM D 1929-68 )  
> 750 °F ( ASTM D 1929-68 )

**Lower explosion limit** not applicable

**Upper explosion limit** not applicable

**OSHA Flammability Classification** none

### Other Flammable Properties

Use water spray to cool containers exposed to fire.

### Unusual Hazards

In case of fire partly flammable, partly harmful vapours, which are irritating to the eyes and respiratory system, may be formed on thermal decomposition. -

### Extinguishing Media

Use the following extinguishing media when fighting fires involving this material:  
water spray - foam - dry chemical - carbon dioxide

### Fire Fighting Procedures

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

# Material Safety Data Sheet

Update: 07/11/2013

Version: 1.1

**ACRYLITE® - Sheets/Rods/Tubes**

Page 3 of 7

---

## 6. Accidental Release Measures

### Procedures

Collect material and place in a disposal container. Obey relevant local, state, provincial and federal laws and regulations.

Should not be released into the environment. Collect and dispose of unused residues.

See Material Safety Data Sheet section 8, Exposure Controls/Personal Protection.

---

## 7. Handling and Storage

### Handling

Avoid dust formation. During thermoplastic processing, vapours of the decomposition products referred to in section 10 are given off, which are technically unavoidable (Observe exposure threshold limit values). During thermal processing and/or machining local exhaust ventilation at processing machines is necessary.

### Storage

Storage: dry.

---

## 8. Exposure Controls/Personal Protection

### Exposure Limit Information

#### ACRYLIC COPOLYMER

trade secret

No Occupational Exposure Values established (ACGIH, OSHA, Canada and Mexico).

### Engineering Controls (Ventilation)

If use operations generate dust, use adequate ventilation.

### Respiratory Protection

A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

### Eye Protection

goggles for machining operations

### Hand Protection

protective gloves against mechanical risks

### Other Protective Equipment

To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132) be conducted before using this product.

---

## 9. Physical and Chemical Properties

**Appearance** transparent

**Physical state** sheets

<b>Odor threshold</b>	not available
<b>Further information</b>	none

See Section 5, Fire Fighting Measures

---

## 10. Stability and Reactivity

### Stability

This material is considered stable under specified conditions of storage, shipment and/or use.

### Conditions To Avoid

High temperature. Depolymerization begins at 250 °C / 482 °F.

### Incompatibility With Other Materials

None reasonably foreseeable.

### Hazardous Decomposition Products

No hazardous decomposition products known.

### Hazardous Polymerization

No dangerous reactions known.

---

## 11. Toxicological Information

### Acute Oral Toxicity

no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)

### Irritant Effect on the Skin

no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)

# Material Safety Data Sheet

## **Irritant Effect on the Eyes**

no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)

## **Sensitization**

no specific test data available no evidence for hazardous properties (structure-activity-relationships) (analogy)

## **Mutagenicity**

no specific test data available  
no evidence for hazardous properties  
(structure-activity-relationships)  
(analogy)

## **Carcinogenicity**

no specific test data available  
no evidence for hazardous properties  
(structure-activity-relationships)  
(analogy)

## **Reprotoxicity / teratogenicity**

no specific test data available  
no evidence for hazardous properties  
(structure-activity-relationships)  
(analogy)

## **Further Information on Toxicology**

The product has not been tested toxicologically. When handled and used as directed the product will not cause hazardous effects to health according to studies on similar products and practical experience. The fine particles contained in the product may cause mechanical irritations of the skin, eyes and mucous membranes. Avoid skin and eye contact and inhalation of product dust/aerosols.

---

## **12. Ecological Information**

### **Information on Elimination (Persistence and Degradability)**

#### **Bioaccumulation**

#### **Ecotoxicological Effect**

#### **Further Information on Ecology**

The product has not been tested ecotoxicologically.

On the basis of the products consistency as well as its low water solubility a bioavailability is unlikely. Studies on products with similar composition confirm this assumption. Prevent substance from entering soil, natural bodies of water and sewer systems.

---

## **13. Disposal Considerations**

### **Procedures**

Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method. CYRO encourages the recycle, recovery and reuse of materials, where permitted, as an alternate to disposal as a waste.
